ROCKET SHELLS carbon fiber drum shells are manufactured using our patented carbon layering technology. Drum shells come standard with a clear gloss finish, a subsurface ROCKET SHELLS logo, and 90 degree (flat) edges, ready for drilling and bearing edges. Please add \$10 per edge for bearing edge machining and \$10 per snare drum bed.

Custom sizes are always available upon request. Please contact ROCKET SHELLS for an estimate.

ROCKET SHELLS IS A REGISTERED TRADEMARK OF ROCKET COMPOSITES, INC.
